Nunn Kiosk – Robins AFB Final Report
Museum of Aviation Foundation
Warner Robins, GA 31099

The Interactive Media Technology Center at Georgia Tech was contracted to build two hardware and software copies of the Sam Nunn Kiosk originally installed in the Sam Nunn Museum in Perry, GA. The equipment was purchased by the museum and shipped to IMTC for assembly. Our lab configured the computers (RAM, disk, OS), installed the kiosk software, and tested. We also assembled the electronics for two kiosk control panels (trackball, 2 buttons, and rocker switch). The computers and all supporting equipment were delivered.
